Finally, after years of running, she feels safe enough to settle down. But her life's calm is completely destroyed when her best friend is murdered. Delaney teams up with the mysterious and sexy Reid Jamison to figure out just what is going down in her world. Delaney will have to make a choice between her life and love. Will she be the product of a prophecy or will her fate be changed? Reid Jamison knew this case wouldn't be easy. But, with the money the Coven was throwing at him, how could he say no? When he met Delaney Hagen, his whole world began to unravel. Faced with a prophecy, murders, love and betrayal, will Reid be able to hang on to this new world? Or will it slip away?

I chose 5 stars because this is the author's first book, but yet, it is a well thought out story line, a book I couldn't put down, and a book that leaves me in high anticipation of the sequel! I recommend this book to both fantasy and romance readers who don't mind if the story gets a bit dirty.

What a fantastic story. I fell in love with the characters. This author has had me sitting on the edge of my seat in anticipation waiting to see what was going to happen. The story starts out with a child Delaney and her mother who is concerned about her daughter being a witch. They contact her aunt and find out that Delaney is a unique witch and they need to protect her from the coven finding out that she exists so that they will not use her to their advantage. When Delaney is an adult she decides she has had enough running and decides to stay in one place. Then the world as she knows it comes crashing down around her, She loses loved ones and meets Reid who is investigating the murders of unregistered witches. She falls in love with him. As the story progresses she is targeted by the murderer. The author had me guessing who the bad guy was throughout the story. I really enjoyed the writing style and can not wait to read more about the Were and Witches and what is to come now that the prophecy has started.

Delaney can control lightning. No witch is supposed to do that, only water, air, fire and earth. But there's a prophecy that a witch that will be able to wield the power of a god who the druids used to worship before they split into witches and werewolves. And that girl will destroy the witches. Her parents died when she was a little girl and was taken care of by a good and kind witch who knew that Delaney's power had to be hidden. If the witches found out, they could kill her or use her, both which would destroy her. Her whole life, she was on the run, always changing locations until she became an adult. That's when she put her foot down and stayed in one place. Her caretaker was not very happy. Then one day, a very handsome werewolf walks into her life because he's on a case, investigating murdered witches. And one of them happens to be Delaney's best friend who was a witch too. They are instantly attracted to each other. But both keep resisting it. Together, they find out what was happening to those witches and they find out more about her power. Along the way, they can't stop themselves from wanting each other, but they are scared to let themselves fall for each other. Man this was one fun ride. The ending was something that I did NOT expect which I liked. I love surprise twists.

I'm just starting to love fantasy and finding my way around the genre. Sometimes it hits or miss. The Lightning Prophecy is definitely a hit. I loved how Cyr developed an entire world within a world that was somehow believable in a fantastical way. I'm not a huge fan of trilogies because I have very little patience (some would say none), but it can't be denied that a series allows a writer to develop an entire new world with much more depth than a single book. I loved how there

were little clues and information dropped about this fantasy world throughout the book. Although some aspects of the story are predictable (it isn't too hard to figure out who the bad guy is), it doesn't matter because the reading is just that enjoyable. I loved Delaney and Reid as well. Delaney was funny! I loved her little witticisms. She's really confused about everything that's going on as well as suffering from loss, but she keeps it together. Reid's character is a bit predictable - "alpha male that doesn't want to get his heart hurt again. Sigh. Are there really that many men out there so terrified of getting hurt? But he was an intelligent investigator and I do love a good mystery. And he was sexy. Let's not forget that! I found the dialogue somewhat stilted. It just didn't flow very well at times. There were also a few things that were unrealistic. When Delaney's friend is found dead, she's all alone and lost but then we found out she has another best friend, Troy. I'm not sure why she didn't call Troy after Sierra's death. There is some repetition especially about the Delaney moving around a lot. Some of the story felt out of order. Delaney goes into a car with Reid several times but then we learn that she's afraid of being in cars. These are just minor issues that don't detract from the enjoyment of reading the story too much. Cyr ends this novel with one heck of a cliffhanger. Personally, I can't wait for the next installment.

Great read! I'm Emily's Mom and I had no idea she had such talent inside her. I really can't wait to find out where this story is headed. Thanks, Emily, for the wonderful book.

This is a fabulous book. I love all the characters, especially Delaney and Reid. Delaney is so powerful and she can't even grasp how much yet. I love how the lore of witches and werewolves came about with this book, it's really different than all the other witch/werewolf novels. It ends on a cliffhanger, but luckily book 2 is already out :) The hotness is hot, but it's not an erotica with a simple plot thrown in to sell the sex. The story carries itself and there's just enough steam to keep the heatseekers happy. I highly recommend this to everyone who loves paranormals!
