## Customer Reviews

Have you ever seen a hen riding a bike? Well, this book is as magic as that. You will see through beautiful color pencil drawings different aspects of the life of a woman who loves her pets and that always try to do her best to give incredible gifts to her animals. This story could be classified as Magic Realism for Kids, literary style very common in Latin America. It is a very funny story that by the way, gives a very good idea of the place in which it takes place, a small town in Venezuela.

Excellent book, I really enjoy it with my childrens!!
