Customer Reviews

I tutor "below-grade-level readers" in 2nd grade. One of my students is "below-grade-level" because he doesn't speak English; just Spanish. I bought this book especially for him and had him take it home to share with his non-English speaking parents so they all can learn at least some English -- nouns and simple verbs. He thanks me for it at least once every week.

This book is well organized by category or location of item. For example, bathroom items are located in a picture of a full bathroom. Farm items are located in a picture of a farm complete with

animals and equipment. It makes learning in context which is a fun way to learn. Great book with good drawings and a bargain. A great way to teach a second language!

Our son requested this book. He's 4 1/2. He and his sister always want to know how to say everyday words in Spanish. They are both learning from this dictionary, as am I. It's a terrific way to learn common words and phrases.
