Customer Reviews

And at a phenomenal price! I am a huge Lovecraft fan. I like the more horror oriented stories but even the fantasy stories enthrall me just for his sheer writing skill. I even like his poems and that is saying a lot because most poems bore me to tears. I also loved the essays. I'm not sure if he wrote more but I particularly loved 'Cat vs. Dog' because it was so funny and so true! Also, 'Supernatural Horror in Literature' was excellent. And even better since most of the titles that I hadn't heard of before are available here, more of them than I would have thought to find at any rate. I also loved the essay on writing weird fiction. I found it to have a lot of helpful and still very valid insights. I find

the collaborative works a bit more uneven than the ones purely his own but still very good. The audio links were a bit of a disappointment though. I could not open them on my reader (the Kindle Keyboard) and had to download them to the Kindle for PC on my desktop. That really bummed me out because I was looking forward to curling up with some if I was too tired to read. As far as their quality goes I have no real complaints. I enjoy the straight up readings (I don't know who does them but the readings are good and they have an old-fashioned quality to them that makes them seem very authentic). I was very glad they didn't go for the modern-day crispness and instead they are a little crackly like a radio broadcast, it makes you feel as though you were listening to recordings from the actual people telling the stories. I don't usually like audio versions and don't generally listen to books so it surprised me that I liked them. I didn't enjoy the 'radio drama' ones as much though. Mostly because the voices weren't as good as the readings.
