Customer Reviews

Great idea, miserable execution. Please, for a next edition fix all of the typographical errors Out of over 100 entries probably 90 need fixing because of typographical errors or bad grammar in Spanish. One of the very first questions is just wrong. They listed the beginning of the war for independence (from Spain, presumably) by MÃ©xico as the cinco de mayo.Re grammar: CuÃ¡l is technically a pronoun and not an adjective. Languages and nationalities and days and months are not capitalized. Many many many accent marks are just not there, but they are elsewhere correctly in the same sentence.The actual information is quite valuable.

This book is why I buy few of my books on-line. I was planning for my classroom and bought many different coloring books for learning: some German, some Spanish, some for science, history, etc. This was the most expensive and yet poorest quality book. There are hardly any pages, no information for learning like other books, and the pictures are over-sized, lack details, and 1/4-1/3 of

the page is taken up by over-sized lettering. Learning coloring books usually provide full color illustrations, especially of such things as FLAGS. Now, I will have to do research to make the planned lesson work. I'm considering returning as I HATE that I was IGNORANT enough to buy it. It says it meets National Standards. For kindergarten, maybe. This is a poor value for the dollar. I'd pay no more than \$1 at a used bookstore for such material. (I was VERY happy with the rest of my 10+ learning coloring books, two language programs, two language workbooks and my 10 sets of 24 colored pencils arrived safely and I can't wait to let the students use them)
