Carrie is trying her hardest to keep it together but after the encounter at the shop with Ben she has no idea what to feel, the fact his kiss was amazing in her opinion but she knows it's different considering for a long time she has only kissed one guy.Ben on the other hand is pretty impressed with himself even though he does feel a little guilty lying about the fact her ex boyfriend was behind her when he kissed her but he didn't want to let the opportunity go so he did what he could. To him nothing could get his mood down so when he gets back to his apartment he learns from his

roommate that his dad asked Ella to marry considering her answer was all over the news, he is shocked that his dad did it this early as to him he thought he would wait a while. The next day Ben decides to go and see his dad to congratulate him on asking Ella but he can't help but wonder why his dad and mom never lasted and when he asks Will the last answer that was expecting was for it to be that his mom cheated on his dad. When he hears this he is so mad at his mom for lying to him that when she does call him he goes mad at her and then realises that she's not the person he thought she was as she revealed that she didn't want to hurt him but he tells her that she was more worried about herself. Carrie is honestly worried about her new business, she knows that she needs to impress Ben in order to achieve great things but the last thing that she was expecting when she decides to head to The Nest was that she would have to pretend to be Ben's girlfriend as Ben's dad's Fianc   is running the shift at the nest and the fact that Ben has told his dad that he was seeing someone.
